Accelerated Business Essentials Program (ABE)

Summary of Program:

The ABE is an online, asynchronous program that provides an intensive review and assessment of our five foundational MBA courses. The program can be completed in as little as five weeks. Each ABE module covers the essentials of one foundational course, with tailored assessments—such as homework, quizzes, and exams. A score of 75% or higher in a module grants the student a waiver for the corresponding foundation course. Students may retake only one module in which they scored below 75%. If a module is not passed, the student must complete the associated foundation course. Note: An ABE score will not replace an earned grade in any Foundation course. The earned grade will remain on the student's official transcript.
